HP Printer Trade-In and Save Program
(Ends June 30, 2018)

Upgrade to the world’s most secure printers1 and MFPs—now for less.

New HP PageWide Enterprise and LaserJet Enterprise devices with JetIntelligence provide the industry’s deepest level of printer security.1 For a limited time, you can purchase an eligible HP MFP or printer and help reduce your risk of a printer security attack—and get up to hundreds of dollars back with the trade-in of any eligible used printer.2

It’s easier than you think

In just four simple steps, you can earn cash back when you exchange your old eligible printer for a new HP device.

Program overview

The 2018 HP Trade In and Save program offer is only available thru June 30, 2018. Take advantage of these savings on a variety of new HP printers and MFPs—designed for security, productivity, and total cost of ownership.

Recycling with HP

HP will recycle your returned products, minimizing the impact on the environment, through HP-approved recycling facilities. HP ensures that returned products are recycled in an environmentally friendly way, processing them to recover valuable plastics and metals for new products and diverting millions of tons of waste from landfills.4

Trade in and Save

For a limited time, when you purchase an eligible HP printer or MFP and return your old ink or laser desktop printer, you can get up to hundreds of dollars back.2 Please see hp.com/go/tradeinandsave for a full list of qualified trade-in products. For a list of compatible products, visit: h20195.www2.hp.com/V2/GetDocument.aspx?docname=4AA6-1178ENW. For more information, visit: hp.com/go/printersecurityclaims.

For qualifying purchase and trade-in products and terms and conditions, including recycling details, visit hp.com/go/tradeinandsave.

1 Most secure printers claim' applies to HP Enterprise-class devices introduced beginning in 2015 and is based on HP review of 2016 published embedded security features of competitive in-class printers. Only HP offers a combination of security features for integrity checking down to the BIOS with self-healing capabilities. A FutureSmart service pack update may be required to activate security features. For a list of compatible products, visit: h20195.www2.hp.com/V2/GetDocument.aspx?docname=4AA6-1178ENW. For more information, visit: hp.com/go/printersecurityclaims.

2 Offer valid until June 30, 2018, and is only available on select printing and imaging products and varies in amounts and timing. Cash back allowance is in the form of a check. Additional restrictions apply. For qualifying purchase and trade-in products and terms and conditions, including recycling details, visit hp.com/go/tradeinandsave.

4 HP Planet Partners program availability varies. See hp.com/recycle.

---

1. Mobile device needs to be connected directly to the Wi-Fi Direct® signal of a Wi-Fi Direct-supported AIO or printer prior to printing. Depending on mobile device, an app or driver may also be required. For details, see hp.com/go/mobileprinting.

2. Bluetooth is a trademark owned by its proprietor and used by HP under license.

3. Mobile device needs to support Bluetooth v4.0 and be enabled. A mobile app such as HP ePrint or HP AiO Remote must be installed and opened for printing. Mobile device must be within 5 feet of the printer.

4. Power consumption varies with the device, the use of wireless connectivity and the charging of battery. Values given are nominal.

¹ Scan speed measured at 300 dpi Black-and-white, grayscale, and color. Actual processing speeds may vary depending on scan resolution, network conditions, computer performance, and application software.

² Scanning from a Smartphone or tablet requires the HP Scanjet Wireless Adapter 100 (L2741A), which must be purchased separately, and the HP JetAdvantage Capture App. Download the app at hp.com/go/documentmanagement. Wireless performance is dependent on physical environment and distance from access point and may be limited during active VPN connections. Wi-Fi Direct scanning requires the Smartphone or tablet to be within range of the same network as the scanner. Wi-Fi and Wi-Fi Direct are registered trademarks of Wi-Fi Alliance®.

³ Black-and-white scan speed measured at 300 dpi using included HP Smart Document Scan Software. Actual processing speeds may vary depending on scan resolution, network conditions, computer performance, and application software.

⁴ Color scan speed measured at 300 dpi. Actual processing speeds may vary depending on scan resolution, network conditions, computer performance, and application software.

⁵ Requires the HP JetAdvantage Capture app. Download the app at hp.com/go/documentmanagement. Wireless performance is dependent on physical environment and distance from access point and may be limited during active VPN connections. Wi-Fi Direct scanning requires the Smartphone or tablet to be within range of the same network as the scanner.
